CONTINUE CASES TO MARCH TERM

Parties Indicted in U. S. Court Yesterday to Appear at that Time

BOND IS FURNISHED

Part of Large Docket Disposed of at Session—Many Spectators at This Term of Tribunal.

In the United States District Court this morning the case of C. K. Garnett vs. the Maryland, Delaware and Virginia Railway Company and the Mutual Ice Company was dismissed by consent as to the Mutual Ice Co., In the same case a plea and motion to quash the return of process was argued and submitted. Leo P. Harlow and Carlin and Carlin appeared for the plaintiff, Gardner L. Boothe for the Mutual Ice Company and Howard W. Smith for the railway company.

The case of the Metropolitan Trust Company vs. the Washington Utilities Company involving $1,500,000 consumed most of today's session of the court. The plaintiff company was represented by Messrs. C. E. Nicol, this city, Leon Tobriner, of Washington. John S. Barbour, of Culpeper, was counsel for the defendant corporation. The latter asked a ruling on a demurrer, alleging that the Metropolitan, Trust Company could not be the legal plaintiff in the suit, as it is not interested financially in the outcome. but that the holders of the notes of the defendant company should be the parties to the action.

Messrs. Nicol and Tobriner made arguments to show that the trust company was empowered to bring the suit.

Judge Waddill reserved his decision on the demurrer to the special term of the court in March.

Parties indicted this week for various offenses had their cases continued to March and gave bond for their appearance at that time.

JUDGE UPHOLDS ELECTION

Lynchburg Government Approved by Court

Lynchburg, Jan. 8.—Judge W. R. Barksdale yesterday in the City Circuit Court sustained the special election here in November, by which a majority of the voters favored the change of the city government to the city manager, Council form of government. Judge Barksdale followed decisions rendered by Judge Moffett in the Roanoke contest and Judge Roberts in the Bristol contest. It is likely that the case will be appealed. Meanwhile the City Democratic Committee has arranged for the primary under the new law in April. No candidates have announced themselves as yet.

PENNILESS GIRLS

Congress Besieged by Workers Discharged Without Price of Railroad Ticket

Without prospects for further employment in Washington, hundreds of girl clerks discharged from the War Risk Insurance Bureau are besieging members of Congress for aid in reaching their homes. The girls for the most part are absolutely penniless, and some of them are in debt.

The War Risk Bureau will dismiss 2,500 employes during the month of January. Of this number, not more than 300 will be able to find employment elsewhere, it is estimated.

IMMUNE OF CHARGE

Judge In Petersburg Holds Policeman Cannot be Tried on Charges Of Bribery

Petersburg, Va., Jan. 8.—In dismissing the bribery charges against the seven accused members of the local police department in the Hustings Court yesterday Judge J. M. Mullen held that under the present laws of the State of Virginia no police officer can be prosecuted for bribery within the jurisdiction of this court.

Judge Mullen's decision came after a hard legal battle between counsel for the defense and Commonwealth's Attorney B. C. Syme in the trial of Detective Charles E. Worrell, charged with accepting several cases of whisky as a bribe from Duke Wilson, the self-confessed negro bootlegger.

The action of the court in dismissing the indictment against Detective Worrell also clears the other six indicted men of the bribery charges, which were brought against them by the special grand jury after an investigation that lasted nearly two months, and during which time some of the most prominent professional and business men of the city were called upon to testify.

Morgan Knight, George Wright and Robert Jones, well-known business men, indicted by the special grand jury along with the police officers, will stand trial on the misdemeanor charges at the next term of the court.

CANDIDATES FOR THE NOMINATION

Bryan, Palmer and Hoover Said to Hold the Stage

TREATY AS AN ISSUE

Democratic National Committee Will be Asked Today to Indorse President Wilson's Stand.

If the views of those Democrats who are arriving in Washington for the meeting of the Democratic National Committee today are to be taken as conclusive, there are only three candidates for the Democratic Presidential nomination who are taken seriously at this time by the country at large.

They are William J. Bryan, A. Mitchell Palmer and Herbert Hoover. The remainder of the field is being considered, of course, but without the feeling that McAdoo or Pomerene, or Clark, or Underwood, or Owen, or Marshall is actually in the running or will be when the time draws near to make a choice.

Interest for the time centers more largely in Mr. Bryan. He has returned to the front rank with a good deal of suddenness and has taken a somewhat commanding position in the affairs of the party whose standard he carried through three national campaigns. The arrivals in Washington yesterday and today grant this, whether they are friendly or unfriendly to the Nebraskan.

But it is recalled that about this time preceding past Democratic national conventions it has been Mr. Bryan's custom to emerge from the background and by his resourcefulness to place himself squarely upon the Democratic map. He did it in 1904; in 1908, when he achieved his third nomination; in 1912, when he took virtual possession of the Baltimore convention, and once more in 1916.

Friends of Mr. Bryan say he will make no fight for delegates; that he will undertake no organized campaign, but if, when the convention meets, he seemed to be the most available man in the field, he will take the nomination and make the race.

FEARS STEAMER IS LOST

Vessel, Carrying Passengers, is Swept Into Lake Michigan in Ice Jam

Muskegon, Mich., Jan. 8.—The Lake steamer Petoskey, with passengers and crew, was believed to be lost in Lake Michigan last night. The vessel was caught in an ice jam here last night. She drifted northward, and it was believed she had freed herself and put back to Milwaukee. A dispatch from Milwaukee tonight said she had not reached there.

The boat carried a wireless outfit but no operator was aboard, according to word from the Crosby Line headquarters, her owners. She was in charge of Captain Thomas Baldwin, of Chicago.

When the ship attempted to put into the harbor here she was caught in the ice and was driven with the flow inshore. The coast guard station was unable to find any trace of the vessel today.

The Petoskey was a combination passenger and freight vessel. The exact number of passengers carried was not known tonight.

MINERS BACK UP LEWIS

Columbus, Ohio, Jan. 8.—International officers of the United Mine Workers of America will go before the commission appointed by President Wilson to arbitrate final settlement of the controversy between the miners and operators, with the backing of the rank and file of the miners of the country as a result of action here yesterday of the reconvened convention of the miners' organization.

By a vote of 1,639 to 221, the convention adopted the motion of Philip Murray, president of the Pennsylvania Soft Coal Miners, to indorse the action of the international officers in calling off the strike, and agreeing to accept the President's proposal, which provide for a 14 per cent advance in wages and agreement to submit all questions in dispute to the President's commission.

PROPOSED ADDITION TO POSTOFFICE

J. A. Moyle of Treasury Says Addition is Necessary

BILL IS NOW PENDING

Thirty Persons Employed in Local Office and Only 1336 Suare Feet of Floor Space.

Representative R. Walton Moore has received the following letter from J. A. Hoyle, assistant secretary of the Treasury, in reference to the proposed addition to the Alexandria postoffice building, Mr. Moore having recently introduced a bill in the House of Representatives asking for an appropriation of $175,000 for the proposed extension.

Referring to your request of the 29th instant, addressed to the Supervising Architect of this Department, the following data, with reference to the need of an extension to the Post Office building at Alexandria, Virginia, is given for your use.

A bill was introduced in the 64th Congress, providing for an extension to the building, and from investigation made by this Department, and from the advice of the Post Office Department, it appears that an extension of this building is necessary.

The present workroom is not only crowded, but is very dark, necessitating the use of considerable artificial light. The growth of the postal business has been so rapid during the past few years that it has been found necessary to occupy space on the second floor which is needed by other Departments, and also space in the basement.

The Postoffice Department reports that 30 clerks and carriers are at present employed at the Alexandria office, and that the workroom contains only 1336 sq. feet or about 44 square feet, of floor space per person, whereas approximately 100 square feet should be provided for each employee and his equipment. The Post Office Department estimates that 54 persons will be employed 10 years hence, requiring 5,000 square feet of working space.

Postal receipts during fiscal year ending June 30, 1918, $109,307.78.

Postal receipts during fiscal year, 1912, $33,799.29.

The other departments of the government have requested floor space as follows:

Attorney General, 5,400 square ft; Internal Revenue, 600 square feet; Secretary of Labor, 600, square feet; Customs, 323, square feet; Civil Service, 2,000 square feet; total 8,923 square feet.

Available on second and third floors of present building, 5,400 square feet.

Amount of additional floor space needed, 3,523 square feet.

It is estimated that a three-story extension covering 4,500 square feet ground area will be sufficient to provide all the space required, and that the cost of same will be $160,000. The site is not of sufficient area to accommodate an extension of the required size, and it is estimated that sufficient additional land adjoining the site on Prince Street may be acquired for the sum of $15,000 additional, making a total of $175,000.00 for the cost of the extension and the necessary additional land.

POTOMAC FISH COMPANY will have on sale tomorrow and balance of week, and we always try and keep the best that can be gotten in fish and oysters. Fresh Spanish mackerel, fresh herring, white lake trout, Western shad, smoke herring, smoke Finnish haddock, fresh smelts, Hampton Bar oysters and Norfolk oysters, and fried oysters. Phone 198. C. H. ZIMMERMAN, Prop. 6-2c.

GRANTED ANNULMENT

Justice Decides Husband Withheld Facts of His Condition From Bride

New York, Jan. 8.—Supreme Court Justice Giegerich has annulled the marriage of Delia and Robert Trohn on the unusual ground that the husband had been suffering from tuberculosis before his marriage and had concealed the fact from his bride. This was the ground on which Mrs. Trohn brought her suit.

"The evidences satisfies me," said Justice Giegerich in his decision, "that the defendant was suffering from tuberculosis before the marriage, but withheld that information and, in fact, stated to her that his ailment was bronchitis and that he was otherwise in good physical condition and free to marry."

Trohn is a prosperous automobile dealer and married Mrs. Trohn in June, 1918. Before her marriage she was Miss Delia Deutsch. She knew Trohn four years before the marriage, but never suspected he had tuberculosis, she said in her complaint.

After she discovered that he was in truth tubercular she left him. Trohn declared that he did not know the disease was contagious."

CRACKING FIRM'S SAFE

Chester Official Finds Would-Be Robber, Who Escapes

Chester, Pa., Jan. 8.—Returning to his office at the plant of the New Farson Refrigerator Company, this city, at 10.30 o'clock Tuesday night to get an important letter he had neglected to put in the mail before he left in the early evening, Stephen G. Messick, an official of the company, found James Harris, the watchman trying to crack the safe.

Harris had chiseled off the combination knob and was about to open the door of the safe, when Messick tapped him on the shoulder. "You seem to be pretty busy, in here," commented Messick. "You had better come along with me."

Harris bolted, dove through a window, carrying sash with him, and was soon lost in the darkness. Messick gave the watchman a hard chase, but Harris was too fleet for him and made his escape. The police are looking for the alleged safe breaker.

HONORING PARENTS

"Honor thy father and thy mother" is one of the laws of Confucius. According to the Chinese, this obligation does not cease when children attain their majority, but is in force throughout life. The promise "that thy days may be long upon the earth," seems to have been bestowed upon the celestial nation, the oldest upon the earth.

The injunction, however, seems to be an issue in one of the chief Christian nations in the world, our beloved United States.

The Chinese philosopher flourished about five hundred years after Moses presented the Decalogue to the Children of Israel.

Readers of the New Testtamen will remember the word "Corban," used in one place. It signified a gift—a certain sum of money given parents which it was erroneously assumed relieved the donors of any farther concern of father or mother. The Great Teacher condemned this procedure.

The Act of the Maryland Legislature of 1916, requiring that indigent parents be supported by their children, was sustained yesterday by Judge Heuisler in Criminal Court in Baltimore in overruling a demurrer to the indictments against Thomas N. Ridgaway and his sister, Miss Helen N. Ridgaway. They are charged with refusing and neglecting, on July 8 last, to support their indigent father, Howard H. Ridgway.

The demurrer was argued recently by the attorney for the accused, who contended that the law was unconstitutional, as it was one sided and not impartial, because it did not require parents to support their indigent adult children.

Judge Heuisler said, under statute it is generally made the duty of the child, who is able to do so, to support his parents when the latter are helpless and indigent.

A number of cases under the law have been tried in Criminal Court of Baltimore, but the Rideway case was the first one in which the law was attacked.

NEED WATCHING

Germany, smarting from defeat brought about by American troops and Mexico, our next door enemy would rejoice for the opportunity to stab the United States, The Carranza government, as well as all others which have preceded it, during the past century, has often manifested its unfriendliness. We have nothing more to expect of Germany. Uncle Sam had long been a thorn in the flesh of the Hun, especially since the late President Roosevelt brought the Kaiser to terms when he had his covetous eyes on Venezuela and would have defied our Monroe doctrine, Roosevelt's ultimatum brought the haughty despot to terms.

The Cleveland Plain Dealer recently contained the following practical observations concerning our unfriendly neighbor as well as the hatred of our overseas foe:

"The discovery that Carranza agents had been purchasing arms in Belgium and Spain is now supplemented by information that Germany has been endeavoring to smuggle machine guns to the Mexican chieftain. "Smuggle" is the correct word in this instance. The exportation of war material by Germany is a violation of the armistice and peace treaty. The arms are reported to have been held up in Holland, through which country the senders, a Hessian firm, were clandestinely shipping them to a Dutch port, whence they were to be carried to Mexico in neutral vessels.

"It may be possible that the German firm considered the transaction merely as a good stroke of business. In all German-Mexican matters however, there is a suspicion of German desire to injure or imperil the United States. Carranza has enough guns for Mexico's domestic needs. His frenzy to get more and more arms from Europe clearly indicates a preparation for extra Mexican hostilities. The failure of the German Government to prevent the export may indicate inefficiency, or it may indicate a solicitude to aid Carranza in whatever project he may have in mind.

"Both Germany and Mexico must be watched. Both hate the United States; both are perfidious. Germany can be kept comparatively harmless by the exercise of vigilance Mexico's harmlessness is measured by her impotence. The two are fit partners, but for practical reasons—the world in general, and the United States in particular, cannot permit the partnership to get on a working basis."

MISCARRIAGE OF RADICALISM

Foster and his radical lieutenants succeeded for a time in stirring masses of alien steel workers to a pitch of furious dissatisfaction with their conditions of work and their wage scales, but the storm has passed, and the steel corporation has weathered it.

Judge Gary's statement that the mills are working at 80 per cent, capacity indicates that the strike has fizzled out. If, as many believe Foster and his crew were attempting to bring about a confiscation of the steel works, their efforts have resulted in complete failure.

As a cotemporary says, "aliens employed in the steel mills were making big wages before the strike. Virtually all of them were far more prosperous than they had ever dreamed of being before coming to this country. After enjoying such wages and the comforts and luxuries their wages secured for them, a few weeks of idleness has doubtless brought many workers to a realization of the folly of following such illogical and irresponsible leaders as Foster.

"With the country calling for steel on an unprecedented scale, the steel workers have a splendid opportunity to enjoy continued prosperity by sticking to their jobs. There is work for all capable and reliable men in the steel trades at the highest wages ever known, and under these circumstances steel workers who hang back from work in the hope of forcing impossible concession from the corporation, are committing the blunder of their lives."

NO LAUGHING MATTER

"They reckon ill who leave me out—that is Mr. William Jennings Bryan's motto, or ought to be," says a periodical. "This sudden emergence into conspicuous notice at Washington is no laughing matter. He probably does not desire to be the Democratic candidate for President, but he certainly has no objection to playing the part of king maker—or at least king-breaker—as he did in 1912. Never was the time more propitious for him, in one respect. His specialty is the setting up of "paramount issues," and the woods are full of paramount issues. The cheap dollar is as ready to his hand as the dear dollar was in 1896; there must be some cure all formula for the labor problem which Mr. Bryan would find no difficulty in framing; the League of Nations is in a sad way, whatever the Senate may be on the point of doing about it—and all for the lack of the right prescription from the right doctor.

VIRGINIA NEWS

In order to allow ample time to prepare for a primary, in which to nominate a candidate, Governor Davis has changed the date for the special election in the Fourth congressional district for the purpose of selecting a successor to the late Representative A. Watson from March 9 to April 27. Judge Asa Watkins, of Farmville, and State Senator Patrick S. Drewry, of Petersburg, are the only avowed contenders thus far for the honor.

Judges of the State Supreme Court will wear gowns when that tribunal convenes next week. At the last meeting the Virginia Bar Association, a resolution was adopted requesting the judges of the State's highest tribunal to wear regalia similar to that worn by judges of the Supreme Court of the United States.

Mrs. E. W. Hastings, of Charlottesville, has received a telegram stating that her brother, Frank Davis Bramham, of Taft, Calif., had been instantly killed in an automobile accident. Bramham was born and reared near Earleysville, Albemarle county, but resided in the West for a number of years.

Wilber W. Fielder, 20 years old, employed by a Richmond typewriter concern, who was married December 31 at Rockville, Md., to Barbara Hamilton, 18 years old, of Scott county, was arrested Tuesday night on a forgery charge while honeymooning at Rutgers Hotel. The bride has gone to Forest, Va., to intercede with the groom's father, whose name is alleged to have been forged to a $150 check. The proceeds from the check are understood to have been used in defraying wedding expenses.

Earnings of the Federal reserve bank of Richmond, according to figures available, were slightly more than 88 per cent on its paid in capitalization during 1919, smashing all previous records since the institution was established. The bank enjoyed earnings of approximately $3,880,000 on its paid in capital of $4,400,000. The previous year the bank earned $3,600,000 on the same capitalization.

R. Rosenblatt and A. Weisman were exonerated in hustings court in Portsmouth yesterday of charges of having seditious literature in their possession. The reputation of the workingmen's circle, a Jewish benefit organization, was cleared of any association with radical bodies. Federal authorities had investigated the charges and dropped the case. The men were under $1,000 peace bond and the proceedings in hustings court yesterday were for a reduction of the bond.

With a bullet hole through his heart, Ivan C. Mayer, 40 years old, of Newark, N. J., native of Richmond, was found in Murphy's Hotel, in that city yesterday. Coroner Whitfield concluded that he had shot himself and that ill health was responsible. It was said that Mayer had undergone five operations for appendicitis and other ailments.

Pleading guilty to two charges of forgery, Mrs. Anna Lee Chambers, a well dressed young woman from Condoe, Texas, who said that she is a daughter of a well to do cattleman, was given two years in prison Tuesday in Hastings Court in Richmond, but Judge Richardson suspended sentence when assured that she would be sent home. Joseph T. Darden, automobile dealer, who admitted having been engaged to her, said he would pay the cost. Mrs. Chambers said she had gone to Richmond to marry Darden, but was disappointed. It was testified that she obtained goods from a department store by forging the signature of a Richmond woman to orders.

DOCTOR REMOVES HEART

Omaha Physician Performs Most Marvelous Operation on Victim of Bullet

Omaha, Neb., Jan. 8.—Some days ago Surgeon Stranek, of St. Joseph's Hospital, at Omaha, took the heart out of Steve Zakich, an Austrian who had shot himself, removed the bullet from the heart, where it was imbedded, replaced the organ in Zakich's body and sewed up the incision.

Today Zakich ate solid food and is on the high road to full recovery. He is practically out of danger. The operation was performed last Saturday, after the bullet had been in Zakich's heart nearly 36 hours. When surgeons arrived they thought he would be dead in a few minutes. After he had survived 36 hours the operation was performed.

ASKS REVERSAL OF ACTION

Significant Message by Governor of New York

Albany, N. Y., Jan. 8.—Reversal of the action of the 1919 legislation in ratifying the prohibition amendment to the United States Constitution was urged by Governor Alfred E. Smith in his annual message to the 1920 legislature at its initial session yesterday.

The Governor said there was grave doubt as to the power of a number of state legislatures that have ratified the Eighteenth Amendment to do so, in view of the referendum provisions in their respective constitutions.

Hines Advocate Control by Capital, Public and Laber

New York, Jan. 8.—Compulsory consolidation of the railroads into a few great corporations, before they return to private control, with the public and labor, as well as capital, represented in the management of the systems, was advocated last night by Director General Hines in an address before the Bar Association of New York City.

Without this "fundamental reconstruction," Mr. Hines declared, the "result will be progressively disappointing and in few years the dissatisfaction of the public will manifest itself through an insistent demand for a radically different plan which is not likely then to stop short of outright government ownership."

Pointing out the "almost impossible" situation of the railroads prior to Federal control, owing to the difficulty of financing the lines, Mr. Hines said that "our past experience has demonstrated that the old system will not succeed." He advocated the fixing by Congress of a general standard of rates to allow earnings "clearly in excess of a reasonable return," which "must go largely to providing adequate reserves to take care of years of depression and at the same time enough of the excess must be left with the company earning it to provide adequate stimulus for efficiency."

WILL ARREST ENVOY

Warrant Issued for Martens, the Self-Styled Soviet Ambassador

Washington, Jan. 8.—A warrant for the arrest and deportation of Ludwig C. A. Martens, self styled ambassador of the Russia Soviet government, has been ordered executed by the Department of Justice.

Martens, regarded, officials said, as the real leader of the Communist party in the United States, was said to be in Washington.

Determination of the government to take Martens into custody was definitely made after all evidence which had a bearing on activities of the Russian Soviet Bureau in New York had been assembled by Assistant Attorney General Garvan. While officials would not disclose the nature of the evidence, they said some of it promised to be sensational.

Martens came to Washington nearly a week ago from New York and with his secretary and other assistants has occupied a suite at a local hotel less than three blocks from the Department of Justice. The signatures on the hotel register are those of S. Nuorteva, who said he was Marten's secretary and who last night made public a statement attacking the Department of Justice.

RULES WOMEN OFF JURIES

Court Declares Vote Doesn't Give Them Right to Serve

New York, Jan. 8.—The right to vote does not give women the right to serve as jurors, according to a decision made by Supreme Court Justice Lazansky in Brooklyn Tuesday.

The court denied a motion recently made for a writ of mandamus to compel the board of assessors and commissioners of jurors to include the names of women in the jury lists. The application was made by Julia V. Grilli, a woman lawyer

"I can see absolutely no connec

"I can see absolutely no connection whatever between the right to vote and jury service," Justice Lazansky announced. "Jury service is not a matter of right, either civil or political, but a matter of duty which the State has the right to regulate as much at it has the right to regulate the qualifications of its officials."

JAPS EXPEL REDS

Action Follows Police Investigation of Propaganda

Following a police investigation of the activities of Russians in Japan, the government has ordered the deportation of Major General Polapov who was military attache to the Russian legation in Korea during the Russo-Japanese war and D. Bantoley, formerly publisher of a newspaper at Valdivostok.

The Japanese newspaper said that General Polapov was known as a pronounced opponent of the Omsk government and Mr. Bantolev's newspaper was suppressed owing to its implaceable opposition to the Kolchak regime. They asserted the deportations were ordered because both were suspected of engaging in Bolshvik propaganda in Japan.

General Polapov issued a statement declaring he possessed information that Generals Nagnef and Lebeded who were recently at Omsk as special envoys representing Generals Denikine delivered letters in which Denikine urged cessation to the civil strife because it was not possible to defeat decisively the Bolsheviki and recommended the starting of negotiations with the Moscow government in order to end useless slaughter.

LABORS TO PURGE SELF

Washington, Jan. 8.—"The radicals are not going to hide behind the skirts of the American labor movement," is the new slogan adopted by the American Federation of Labor.

Fully as powerful as the attack by the Department of Justice on the reds will be the labor dragnet, aimed to eliminate every radical, Bolshevik, or I. W. W. from organized trades unionism.

Labor recognizes the danger to its cause if revolutionaries are encouraged to seek shelter under its wing, and for that reason is going to build up a comprehensive "card index" system, whose chief function will be to lend co-operation to the Government in its fight against the alien and domestic radicals.

Leaders are now cleaning out a revolutionary nest in Philadelphia known as the Workmen's Soldier's, and Sailor's Council.

Officials of the International Association of Machinists are redoubling their efforts to drive out the "reds."

MISHAP SPILLS 200 GALLONS

Guards Drive Back Crowd With Cups At Brunswick

Frederick, Md., Jan. 8.—Four barrels of 12-year-old whisky, approximately 200 gallons, valued at $4,500, was spilled in the freight yard, at Brunswick, Friday. As the car went over the "hump" the brake, it is said, would not work and the barrels were "jammed." The impact staved in four of the barrels and the whisky poured in streams from crevices of the car.

Word was passed that real "booze" was in town, going to waste, and a number of thirsty persons assemble with tin cups, milk bottles and quart cups to salvage some of the fluid. Armed guards accompanying the train surrounded the car and permitted no one to approach within reaching distance. The train soon moved off.

MORE PAY FOR DIPLOMATS

Disruption of the Service Threatened, Declares Lansing

Disruption of the diplomatic service is threatened unless higher salaries are paid to those who represent America's interests abroad Secretary of State Lansing told the House Foreign Affairs Committee yesterday, when hearings were opened on the diplomatic and consular appropriation bill.

Secretary Lansing urged that the bill provide minimum salaries of $35,000 a year for ambassadors to the world powers; $25,000 for other ambassadors, and $12,000 to $15,000 for ministers, with corresponding increases for other representatives. The present pay of ambassadors is only $17,500, and $12,000 is the high est paid any minister.

The greatly increased cost of living abroad, the Secretary said, makes substantial increases imperative.

INCOME TAX EXCEEDS INCOME

Shaw Offered $1,000,000 For Plays Find Peculiar Angle

London, Jan. 8.—George Bernard Shaw has refused an offer from New York of $1,000,000 for the motion picture rights of all his plays.

He found that if he accepted the offer he would have to pay, in income tax and the super tax in England, $1,017,000.

Commenting on this the Manchester Guardian says:

"It is a curious anomaly that, an author's receipts from the sale of his work are counted as income, an inventor's receipts from the sale of a patent are regarded as capital. Authors are evidently people to be discouraged, like super tax payers."

If You Contemplate Buying a Home. Don't Delay. Do It Now!

Get the idea out of your mind that you ever again can purchase a home at the prices prevailing a few years ago. It can never be done, Alexandria will continue to grow, the talk of the pessimist can't retard its growth.

My reason for advising the purchase now is, because the cost of building material is showing an advance each month, and labor will most certainly not be lower.

It is the opinion of men most competent to forecast the future, that these conditions are certain to continue for some years. Therefore, it appears that you will be considering your best interest by purchasing now.

As the cost of building advances, so will rents be increased, and in sympathy with the cost of building, houses already constructed are certain to advance in price, then, too, because of the scarcity of houses, and the demand, larger initial payments will be demanded. If you have, or can secure $500 or more, purchase your home now, or you will regret it later.

Six modern brick homes on King street, near Union Station, containing eight rooms, (two in basement), bath, electric lights, and all modern conveniences. These are attractive homes, with great future values to look forward to. Especially favorably located for railroad men. Price $5,500.00. Small cash payment.

Nine room and bath brick, 201 South Lee Street, convenient to torpedo plant, a paying investment as a rooming house, reasonable terms if desired. The price is reasonable, first payment $700.00 to $1,000.

A basement house in South Pitt street, very desirable neighborhood. Many people prefer this style of house, reasonable in price.

Several homes in upper Prince street, convenient for railroad men, can be purchased on reasonable terms One of these particularly attractive.

NOTICE

If there is a property that you especially desire, and which is not on the market, consult me, perhaps I can secure it for you. It is part of my business to attend to these matters for you.

This is an unusual home and must be seen to be appreciated.

It will give me pleasure to show you this unusual home, price $19,000.00. Any builder will assure you that this house could not be duplicated for less than $25,000.00 without the value of the lot. Will require about $5,000.00 to handle this.

In upper Prince street, a corner brick store building, with living rooms above, fine location for combined city and country trade, should prove a money maker. Price about $5,500.

One of the most attractive homes in the city, 500 block of Duke street, specially desirable neighborhood, large lot, garage in rear, a bargain at $8,000.

Several people are contemplating purchasing this fine home, so you should decide promptly. $3,000.00 cash will handle this.

DIPLOMATIC CLASH

Disposition of Constantinople Likely to Cause Friction Between Great Britain and France

Paris, Jan. 8.—A sharp diplomatic clash between France and England is inevitable when the subject of the disposition of Constantinople and the Turks comes up for discussion at next week's conference of Allied statesmen, it is generally admitted here today.

The question is: Shall England be allowed to deliver a blow that will drive the Turk from Europe, or shall France prevail and inject a stimulant that will keep "the sick man" of Europe going several years longer?

Recent utterances of British statesmen have indicated that England desires to drive the Turk from Europe and force the Sultan to establish his capital either at Broussa or Konish. This has aroused a stream of protest from French statesmen and publicists.

France has two important reasons for keeping the Sultan at Constantinople. First, as a country with many Musselmans among the inhabitants of her dependencies, she does not wish to do anything that might shock their sensibilities. Secondly she frankly admits that to oust the Turk from Europe would result in England assuming a protectorate of the Dardanelles and, consequently, a predominating position in the affairs of the Near East. This would completely eliminate French influence in that part of the world.

French statesmen insist that to oust the Turks from Constantinople would stimulate the greedy aspirations of several European nations to possess the great city and thus lay the foundations for future wars.

The French press points out that Greece already claims Constantinople and that Bulgaria constantly menaces it. Whenever orderly government is finally established in Russia it is practically certain that she will again be anxious to realize her ambitions to possess the city and the straits which she must control in order to develop her commerce to the fullest extent.

France frankly admits, however, that even if Constantinople is internationalized and placed under the mandate of some Allied nation, Great Britain is the only power having a sufficient fleet to guarantee adequate protection. Hence, it is certain that Britain will become the dominant power there.

SOCIALISTS BARRED

New York Assembly Takes Drastic Action in Five Cases

Albany, N. Y., Jan. 8.—By an overwhelming vote, the Assembly yesterday suspended five Socialist members elected last fall. They are to have the right to appeal, however, to a tribunal appointed by the Assembly. The five who were refused seats were: Samuel A. Dewitt and Samuel Orr, of the Bronx; Charles Solomon, of Brooklyn, and Louis Waltman and August Classens, of Manhattan.

Action against the Socialists was unexpected, although there had been rumors that something unusual was to take place at the opening session. After disposing of the preliminary routine, Speaker Sweet directed the sergeant-at-arms to bring the five Socialists before the bar of the House and as they lined up before the rostrum, said:

"You who are here seeking seats have been elected on a platform absolutely inimical to the best interests of the State of New York and the United States. The party that elected you is not really a political party but a membership organization admitting aliens, enemy aliens and minors."

MAY BE KING OF HUNGARY

Exclusive photograph, just received in America, showing Prince Franz Joseph Otto, eldest son of ex-Emperor Carl of Austria, who is suggested by the monarchist faction in Hungary as king of that nation. The Attractive City.

In a word, then, so far as I am personally concerned, you will not make your city more attractive to me by buildings, parks or monuments—what other city has not these things? But if you can show the heart that I know is in your breast, if you can forget to look straight ahead in order to cast a look of friendly interest on a passing stranger, if you can cease to fear being "done" and become inspired by the desire once in a while to show your bricks and stones, just to that extent will you do your part in making your city attractive. Oil may draw money to Tulsa; social exclusiveness will always make Newport and Palm Beach desirable to a limited number; the palaces of Pasadena will attract other millionaires there. But you'll prefer smoky old Pittsburgh or noisy Kansas City, or St. Joseph, or any other city that shows its heart beneath the grime and takes the lid off its smile.—J. Breckenridge in Twilight Hour Magazine.

INGOMAR THEATRE

"If You Don't Like America Get to H—Out!"

That's the answer of a returned American soldier to the radical agitators at the height of a sensational police raid on the bomb-senders' headquarters in a breath taking scene of Augustus Thomas' powerful American drama, "The Volcano," a W. W. Hodkinson release.

That's the answer plus nightsticks in the hands of muscular policemen

Every loyal man, woman and child in America will stand up and cheer this remarkable, timely picture that shows the way to end unrest and disorder in the United States.

You'll be roused to great enthusiasm when you see Governor Alfred E. Smith, of New York, in person signing the bill prohibiting the use of red flags in parades or other demonstrations. And at the finish you'll want to do what the Governor did—shake the hand of every actor in the drama from Leah Baird, the star, down to a dozen American doughboys for pointing the way to the eradication of America's greatest post war menace—the organized band of internal foes, who seek to destroy what your brothers, sons and fathers so gloriously defended.

See "The Volcano," the timeliest as well as one of the most powerful American dramas, by the foremost American dramatist, at the Ingomar Theatre tonight.
